Vallejo Police Department Cell Site Simulator (CSS) Deployment Log Calendar Year 2024

The Vallejo Police Department recognizes the public interest in ensuring that cell site simulator technology is appropriately used and monitored and seeks to be transparent with its usage. Please note that the cell site simulator is merely an investigative tool to find a cell phone. Results from the cell site simulator alone are never used establish probable cause for an arrest or search.

A deployment is defined as any time the cell site simulator is turned on and used to find a target phone. The cell site simulator might be deployed several times to find the same phone even if previously successfully located. Each deployment in the log is not necessarily a separate phone that was searched for. An arrest is not necessarily effected even if a phone is located. There are many factors that determine when and arrest will be effected.

Authorized Purpose Codes:

- (A) Locate missing persons
- (B) Locate at-risk individuals
- (C) Locate victims of mass casualty incidents
- (D) Assist in felony investigations
- (E) Apprehend fugitives

****In the event a search warrant is (N*) NOT obtained due to special circumstances, an explanation will be provided in a separate attachment****

“ATTACHMENT A”- Deployment #7

An exigent situation, such as a kidnapping for ransom, (which is how this case was reported to VPD) our policy and state law allows for use of the cell site simulator (CSS) without a search warrant. Detectives then would be required within 3 business days to apply for a search warrant for the use of the CSS to intercept a cell phone signal. In this specific case detectives did not actually locate the phone, and no interception of the cell phone signal was conducted, negating the need for a search warrant. There was no interception, which means no search occurred and a search warrant was not needed. Prior to locating the phone detectives learned, through other investigative means, that the kidnapping for ransom was unfounded. It was learned that two teenagers called the missing person’s father and made a bogus request for money as a joke. They did not know where the missing person was.

FROM: Jerome Bautista, Captain Police
SUBJECT: FLOCK RAVEN GUNSHOT DETECTION BETA PROJECT AD-HOC COMMITTEE REPORT.

RECOMMENDATION

Surveillance Advisory Board Ad-hoc committee to present their progress.

BACKGROUND AND DISCUSSION

The Surveillance Advisory Board formed an ad-hoc committee to work directly with the Police Department personnel to develop the policies and review usage limitations and effectiveness of the beta RAVEN auditory detection system by FLOCK. On November 21, 2024, the board selected the following ad-hoc committee members:

1. Simon Lee (Vice Chair)
2. Mike Moreno (Board Member)
3. Stephen Pasholk (Board Member)
4. Jerome Bautista (Police Captain)
