LANCE DAVID, BOARD SECRETARY

**DATE:** August 21, 2025  
**TO:** Surveillance Advisory Board Chair and Members of the Board  
**FROM:** Jerome Bautista, Police Captain  
**SUBJECT:** FOLLOW UP ON FLOCK RAVEN GUNSHOT DETECTION DATA REPORT

**RECOMMENDATION**

The Surveillance Advisory Board to weigh in and make a recommendation or not make a recommendation to the Vallejo City Council concerning the use of Flock Raven gunshot detection technology. Vallejo Police Department will provide a comprehensive data report on Raven efficacy.

**BACKGROUND AND DISCUSSION**

In the past several years, Vallejo Police Department has deployed various technologies from Flock. Flock is a nationally reputable vendor that provides automated license plate reader cameras (ALPR). The City of Vallejo PD has successfully deployed these cameras throughout the city. In the summer of 2022, Flock approached the police department and introduced a new gunshot detection technology, RAVEN. As Flock was developing the RAVEN technology, the technology was offered to the Vallejo Police Department for one year no charge as a beta test.

The technology was brought to the Surveillance Advisory Board for their review and input. After several public meetings and presentations from Flock, the board strongly felt that this technology was not ready and recommended against the use of technology. The Surveillance Advisory Board passed Resolution SAB-003-2022 recommending against the use of technology. The Police Chief asked the Vallejo City Council to make a ruling and allow the beta test for the RAVEN technology to continue. On December 20, 2022, Vallejo City did not accept the board's recommendation and allowed Vallejo Police Department to continue with the beta test for the RAVEN technology. Vallejo City Council resolution 22-216 N.C. was passed.

The Vallejo Police Department continued to engage with the board as the RAVEN technology was installed and fully deployed. The Surveillance Advisory Board created an ad-hoc committee that worked with the Vallejo Police Department in developing the police for the RAVEN technology. Throughout the beta test process, Vallejo Police Department provided routine reports on the usage of RAVEN technology and its ability to solve crimes.

The Vallejo Police Department has successfully completed the RAVEN beta test with Flock and at this point making a recommendation to the Vallejo City Council to procure the RAVEN technology going forward. The Flock RAVEN contract will go to the City Council in the next two months. The item is being presented to the Surveillance Advisory Board to inform you that the City of Vallejo Police Department intends to deploy this technology as a new tool in their effort to reduce crime in Vallejo and make Vallejo safe.

## Vallejo Police Department Cell Site Simulator (CSS) Deployment Log Calendar Year 2025

The Vallejo Police Department recognizes the public interest in ensuring that cell site simulator technology is appropriately used and monitored and seeks to be transparent with its usage. Please note that the cell site simulator is merely an investigative tool to find a cell phone. Results from the cell site simulator alone are never used establish probable cause for an arrest or search.

A deployment is defined as any time the cell site simulator is turned on and used to find a target phone. The cell site simulator might be deployed several times to find the same phone even if previously successfully located. Each deployment in the log is not necessarily a separate phone that was searched for. An arrest is not necessarily effected even if a phone is located. There are many factors that determine when and arrest will be effected.

Authorized Purpose Codes:

- (A) Locate missing persons
- (B) Locate at-risk individuals
- (C) Locate victims of mass casualty incidents
- (D) Assist in felony investigations
- (E) Apprehend fugitives

**\*\*In the event a search warrant is (N\*) NOT obtained due to special circumstances, an explanation will be provided in a separate attachment\*\***
