Report from Boardmember Cohen-Thompson. Read draft SAB Community Outreach Policy

Report from Boardmember Stewart. Spoke about Ad-Hoc Workplan Committee

10. ACTION CALENDAR

A CONSIDERATION OF AN AUDIT PLAN FOR THE FLOCK SURVEILLANCE SYSTEM.

Recommendation: Board to discuss and consider a potential audit plan for the Flock surveillance system and then make a recommendation to the City Council.

Contact: Jerome Bautista, Captain (707) 648-4461
Jerome.Bautista@cityofvallejo.net

Staff Presented: Sergeant Caitham, Deputy Chief Knight

Ad-Hoc Workplan Committee will work on Audit Plan with PD. Flock to provide templates for Audit Plan

B REVIEW OF POLICY FOR THE USE OF THE FLOCK SURVEILLANCE SYSTEM.

Recommendation: Board to discuss and consider potential revisions to the existing policy for the use of the Flock Surveillance System and make a recommendation to the City Council.

Contact: Jerome Bautista, Captain (707) 648-4461
Jerome.Bautista@cityofvallejo.net

Staff Presented: Deputy Chief Knight, Lieutenant Tai, Sergeant Caitham

Update Language to GSAD Policy. Edits to 434.2/434.3.3/434.3.5

Action: *Motion to put on the recorded Edits to 434.2/434.3.3/434.3.5*

Motion from Cohen-Thompson, Seconded by Stewart

Motion Passed Unanimously

C REVIEW AND CONSIDERATION OF REVISED PRIVACY LANGUAGE FOR THE FLOCK MASTER AGREEMENT.

Recommendation: Consider the revisions and make a recommendation to the City Council.

Contact: Jerome Bautista, Captain (707) 648-4461
Jerome.Bautista@cityofvallejo.net

Staff Presented: Chief Assistant City Attorney Randy Risner

Action: *Recommendation on Edits to The Flock Master Service Agreement.*

Motion from Chair Lee, Second by Boardmember Owen

Motion Passed Unanimously

11. INFORMATION CALENDAR

A VALLEJO POLICE DEPARTMENT MONTHLY TECHNOLOGY USAGE REPORTS FOR DRONES, CELL SITE SIMULATOR, AND FLOCK ALPR CAMERAS, FLOCK RAVEN GUNSHOT DETECTION SYSTEM.

Questions were asked to Lieutenant Tai, Sergeant Caitham, & Deputy Chief Knight from Boardmembers.

Boardmember Stewart would like log report attachment 6 removed from future Information Reports.

12. FUTURE AGENDA ITEMS

A DOES THE CITY SIGN AN NDA WITH TECHNOLOGY VENDORS?

Boardmember Owen decided this did not need to move forward.

B WHAT IS THE POLICY IN DATA SHARING WITH ANY FEDERAL AGENCIES?

Boardmember Owen decided this did not need to move forward.

C LIST ALL LAWS PROHIBITING DATA SHARING IN CALIFORNIA.

Action: *Vote requested from City Attorney Risner to put on Future agenda item.*

Motion Passed Unanimously

13. ADJOURNMENT

8:18PM

DATE: January 15, 2026
TO: Surveillance Advisory Board Chair and Members of the Board
FROM: Lance David, Board Secretary
SUBJECT: **MOBILE SECURITY TOWERS (LVT) LIVE VIEW TOWERS POLICY**

RECOMMENDATION

APPROVE MOBILE SECURITY TOWERS (LVT) LIVE VIEW TOWER POLICY

BACKGROUND AND DISCUSSION

On July 1, 2025, Vallejo City Council convened a special meeting to discuss and brainstorm possible solutions to deter crime in the summer months. Vallejo Police Department Chief and Deputy Chief Knight gave a thorough presentation to the City Council and presented various technology and staffing options to the City Council. One of the options was to install 4-6 mobile security towers in various crime hot spots in the city. Vallejo City Council unanimously directed the staff to expedite the purchase of security towers and committed to a budget allocation for the purchase. Since this is a new technology and needs to be reviewed by the Surveillance Advisory Board, the board is asked to review various privacy issues surrounding the technology. AD-HOC Committee worked with VPD to create a MOBILE SECURITY TOWER POLICY.

Mobile Security Towers

435.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the use of Mobile Security Towers (MST). The Department currently uses Live View Technologies (LVT) for Mobile Security Towers.

435.2 POLICY

It is the policy of the VPD to operate MSTs as part of the Department's crime-reduction strategy, to effectively allocate and deploy personnel, and to enhance public safety in public areas. MSTs are strategically placed to act as a high visibility deterrent, to detect and capture criminal activity, and to help safeguard against threats to the public.

In real time, employees may access live monitoring, broadcast audio messages, and activate lights and strobes. Employees will also have access to historical video footage. The placement and use of MSTs by Department members shall be done in a legal and ethical manner to protect individuals' constitutional right to privacy.

435.3 AUTHORIZED USE

MSTs may be accessed for legitimate law enforcement purposes. Legitimate law enforcement purposes may include, but are not limited to:

- (a) The prevention, detection, and investigation of crimes.
- (b) The apprehension of individuals.
- (c) Deployment of resources.
- (d) Training, research, and media relations

435.4 PROHIBITED USE

MSTs will not be intentionally used in any manner to invade the privacy of individuals or to observe areas where individuals have a reasonable expectation of privacy. MSTs may not be used in any of the following ways:

- (a) In any way that violates the law.
- (b) For a non-law enforcement purpose.
- (c) For the purpose of infringing on the lawful exercise of rights protected by the First Amendment.

435.5 ACCESS TO FOOTAGE

The Department will provide members with access to the web-based platform and mobile app to view video footage. Access will be provided on a need-to-know, right-to-know basis.

Administrator privileges such as defining user roles, programming alerts, or push notifications will be managed through the Operations Bureau Captain or their designee.

Mobile Security Towers

435.6 DATA COLLECTION AND RETENTION

The Operations Bureau Captain is responsible for ensuring systems and processes are in place for the proper collection and retention of MST data. Random audits of the MST data may be conducted at the direction of the Operations Bureau Captain.

All MST data downloaded to the server should be stored in accordance with the established records retention schedule. Thereafter, MST data should be purged at the end of the 30 days of storage unless it has become, or it is reasonable to believe it will become, evidence in a criminal or civil action or is subject to a discovery request or other lawful action to produce records. In those circumstances the applicable data should be booked into evidence.

All downloaded media shall be stored in a secure manner and access shall be limited to authorized personnel. Video evidence obtained for a criminal investigation shall be maintained in accordance with established evidence procedures and shall be appropriately documented.

435.7 ACCOUNTABILITY AND SAFEGUARDS

All data will be closely safeguarded and protected by both procedural and technological means. The MSTs video management system has an audit feature and logs when the system was accessed, and which actions were taken by the user. Such actions may include when the cameras were accessed and if footage was requested to be downloaded.

- (a) All non-law enforcement requests for access to stored MST data shall be processed in accordance with applicable law.
- (b) All MST viewed at the workstation shall be accessible only through a login/password protected system capable of documenting all access of information by name, date, and time.
- (c) To ensure proper operation and to facilitate oversight of the MST system, all users will be required to have individual credentials for access and use of the systems and/or data which has the ability to be fully audited.
- (d) Persons approved to access MST data under these guidelines are permitted to access the data for legitimate law enforcement purposes only, such as when the data relates to a specific criminal investigation or Department related civil or administrative action.
- (e) Such MST data may be released to other authorized and verified law enforcement officials and agencies for legitimate law enforcement purposes.

For security or data breaches, see the Records Release and Maintenance Policy.

435.8 DATA SHARING

The Vallejo Police Department does not permit the sharing of MST data gathered by the City or its contractors/subcontractors for purpose of federal immigration enforcement, these federal

immigration agencies include Immigrations and Customs Enforcement (ICE), and Customs and Border Patrol (CPB). The Chief of Police or designee will also consider California Reproductive Privacy Act (Health and Safety Code § 123460 - § 123469) before approving the sharing of MST

Vallejo Police Department

Vallejo PD Policy Manual

Mobile Security Towers

data for the purpose of investigating any person seeking to exercise their reproductive health care rights within California.

- (a) All Public Records Act requests for data shall be forwarded to and managed by the Professional Standards Division.
- (b) Data may be shared with law enforcement partners for law enforcement purposes.
- (c) Data may be shared with media outlets or on Department social media with the approval of the Chief of Police or in accordance with department guidelines.

435.9 TRAINING

The System Administrator should ensure that members receive department-approved training for those authorized to use or access the Mobile Security Towers. No employee of this Department shall operate Mobile Security Towers or access MST data without first completing Department approved training.

WHO IS LVT?

LVT provides a user-friendly, enterprise-grade safety and security ecosystem that can quickly and easily secure any physical environment through the use of intelligent automation and actionable insights.

PROBLEMS WE SOLVE

- » Increase employee and customer safety
- » Crime prevention
- » Evidence gathering
- » Time-lapse creation
- » Delivery and contractor validation
- » Counting foot/vehicle traffic outside of store
- » Increase situational awareness
- » Augment guards

THE LVT DIFFERENCE

RAPIDLY DEPLOYABLE Our solar-powered, cellular-connected solution can be up and running in a matter of minutes.

VIDEO MANAGEMENT SYSTEM (VMS) Our proprietary VMS is a highly-reliable, cloud-based software that gives you access to your cameras no matter where you are. And with automated alerts, you'll know right away when an incident happens and whether you should take immediate action.

AUTOMATED DETERRENCE With easy-to-program automated messages, strobe and flood lights, and camera movements, your LVT unit warns would-be criminals that they're being watched and helps prevent crime from ever happening.

RESULTS

decrease in parking lot incidents

reduction in violent crimes

reduction in grab-and-go theft

INDUSTRIES WE SERVE

Across the United States, you'll find thousands of LVT units defending retail stores, parking lots, critical infrastructure, transportation services, and construction sites. Our units are also used by law enforcement and security services to fill gaps in manpower, protect human lives, and deter criminal activity.

THE SAFETY AND SECURITY SOLUTION TRUSTED BY

DATE: January 15, 2026
TO: Surveillance Advisory Board Chair and Members of the Board
FROM: Randy Risner, Chief Assistant City Attorney
SUBJECT: LIST ALL LAWS PROHIBITING DATA SHARING IN CALIFORNIA.

RECOMMENDATION

RECEIVE A REPORT SUMMARIZING APPLICABLE DATA SHARING LAWS.

BACKGROUND AND DISCUSSION

Board Member Bras has requested this information.

ATTACHMENTS

1.	Data Sharing Law Summary
----	--------------------------

CONTACT

Randy Risner, Chief Assistant City Attorney (707) 648-4548
Randy.Risner@cityofvallejo.net

California Laws Governing Data Sharing

1. Automated License Plate Reader (ALPR) Data, California Civil Code §§ 1798.90.5 – 1798.90.55

State law limits the use and sharing of ALPR data collected by law enforcement agencies. ALPR data may only be shared with other California public agencies and then only if authorized (Civ. Code § 1798.90.51). Police departments must adopt written policies concerning ALPR usage and privacy. They must maintain access logs, restrict access to trained personnel, and implement security procedures (Civ. Code §§ 1798.90.51–1798.90.54).

Sharing ALPR data with federal or out-of-state agencies, absent express legal authorization (i.e., a federal subpoena), is prohibited. Violations may be enforced by the California Attorney General or through civil actions (Civ. Code § 1798.90.53).

2. California Electronic Communications Privacy Act (CalECPA), Penal Code §§ 1546–1546.4

CalECPA requires law enforcement to obtain a search warrant to access electronic communication information, electronic device data, or location information, subject to limited exceptions (Penal Code § 1546.1). Use and disclosure of such information is limited to the scope authorized by the warrant (Penal Code § 1546.1(d)).

3. Body-Worn Camera and Audio/Video Recordings, California Public Records Act (CPRA), Gov. Code §§ 7923.600–7923.625

Certain categories of police audio and video recordings are subject to mandatory disclosure, including recordings related to officer-involved shootings, serious uses of force, and sustained findings of specified misconduct (Gov. Code § 7923.625). At the same time, the statute requires redaction of medical information, personal identifiers, and information that would compromise safety or investigations including the identities of witnesses and bystanders (Gov. Code § 7923.610).

4. Criminal Offender Record Information (CORI), Penal Code §§ 13100–13326

Criminal history information may be disseminated only to criminal justice agencies and for authorized governmental purposes (Penal Code § 13300). Unauthorized secondary dissemination is prohibited and subject to penalties (Penal Code §§ 13302–13303).

5. California Values Act, Government Code §§ 7284–7284.12

The California Values Act restricts the use of local law enforcement resources, including data sharing, to assist federal immigration enforcement, except where required by law or authorized by a judicial warrant (Gov. Code § 7284.6).

6. California Public Records Act, Gov. Code §§ 7920.000–7931.000

Public records are presumed discloseable unless exempt. Law enforcement records may be withheld where disclosure would compromise investigations, reveal confidential sources, or endanger safety (Gov. Code §§ 7923.500–7923.600).

7. Driver’s Privacy Protection Act (DPPA), 18 U.S.C. §§ 2721–2725

Federal law restricts disclosure and redisclosure of personal information obtained from motor vehicle records. Law enforcement use is permitted, but redisclosure is limited to only statutorily permitted purposes (18 U.S.C. § 2721).

8. FBI Criminal Justice Information Services (CJIS), 28 U.S.C. § 534

The U.S. Department of Justice regulates criminal history systems such as NCIC and N-DEx. Agencies accessing these systems must comply with the FBI’s CJIS Security Policy, including access controls, auditing, and personnel screening. Noncompliance can result in termination of access.

9. Health Insurance Portability and Accountability Act (HIPAA), 42 U.S.C. § 1320d et seq.; 45 C.F.R. Parts 160 & 164; 45 C.F.R. § 164.512(f)

HIPAA applies only to “covered entities,” such as health care providers, health plans, and health care clearinghouses (45 C.F.R. § 160.103). It prohibits the sharing or disclosure of personal healthcare information subject specific authorization.

HIPAA permits covered entities to disclose protected health information to law enforcement for limited purposes, including identification of suspects, investigation of crimes, decedents, crimes on premises, and serious threats to health or safety.

Vallejo Police Department Cell Site Simulator (CSS) Deployment Log Calendar Year 2025

The Vallejo Police Department recognizes the public interest in ensuring that cell site simulator technology is appropriately used and monitored and seeks to be transparent with its usage. Please note that the cell site simulator is merely an investigative tool to find a cell phone. Results from the cell site simulator alone are never used establish probable cause for an arrest or search.

A deployment is defined as any time the cell site simulator is turned on and used to find a target phone. The cell site simulator might be deployed several times to find the same phone even if previously successfully located. Each deployment in the log is not necessarily a separate phone that was searched for. An arrest is not necessarily effected even if a phone is located. There are many factors that determine when and arrest will be effected.

Authorized Purpose Codes:

- (A) Locate missing persons
- (B) Locate at-risk individuals
- (C) Locate victims of mass casualty incidents
- (D) Assist in felony investigations
- (E) Apprehend fugitives

****In the event a search warrant is (N*) NOT obtained due to special circumstances, an explanation will be provided in a separate attachment****
