Inherent Ruggedness in the De Luxe Dodge Senior

There are thousands upon thousands of motorists whose long experience with Dodge Brothers cars has taught them the true significance of Dodge dependability. They constitute that vast host of Dodge enthusiasts who go on year after year owning and driving Dodge Brothers cars—unable to find in any other make all of the things they insist on. Among them are some who have desired that same sterling dependability, that same unfailing road fortitude, that same safety and economy of travel but in a large car of de luxe appearance and quality. For them the Dodge Senior was especially designed. Here is an automobile that for size, luxury, power and general efficiency has never been duplicated at anything like its notable low price. And it is now available, if desired, with that latest engineering advancement, a four-speed transmission, completing an extraordinary list of modern features.
